NORTH BERWICK - £450

18<sup>th</sup>-20<sup>th</sup> MARCH 2019

## Thinking of a career in golf club management?

Working in the golf industry may seem like a dream job but how would you know that it is right for you, and how would you go about finding out?

Today's club manager will be expected to manage a large complex property with multiple buildings, whilst leading a team to deliver leisure services to members and visitors, and managing the clubs finances prudently.

Whether club managers come from a business background or are entering the club industry from hospitality, University or sport, it is essential to understand the broad range of issues that affect the day-to-day management of a club in 2018.

Club managers recognise that clubs are businesses that require a combination of business acumen, tact, diplomacy and top-class management skills. This 3-day education course is designed to help you establish what qualities you bring that would suit the industry, and what skills you will need to develop to give you a fulfilling career and become a leader in our industry.
